STAT

26th June 1952

Dear

STAT

I received from Way your signal about the Reception Survey team you are preparing to send to Pakistan and I have asked him to reply to you that we have no special suggestions or requirements.

I should not like you to think that we are not interested or that we would not give you any help we could if you would indicate how this could best be done. We have not, as you know, any linguists of the kind you will presumably be needing and I imagine that finding linguists will be one of your greatest difficulties both for the survey and for the actual operation if it ever comes off.

I do not think it is necessary for me to say anything to our authorities here. The possibility of your undertaking this survey was, I think, mentioned some time ago and great interest was expressed in it. The sort of report we would like to have would be rather similar to the one we have recently done on the Baltic States, that is to say as much factual information about the stations and their programmes, reception quality and content of the material monitored. I would also very much like to be kept informed of the progress you make in the project, and as I said we will certainly help you in any way we can.

Yours sincerely,

R.D. Marriott
